Kawasaki

**2017 MULE™ PRO SERIES
SIDE X SIDES**

BUILT STRONG TO **WORK HARD**

Strength, durability and refinement come together in the 2017 Kawasaki MULE™ PRO Series, the most capable and versatile collection of MULE PRO side x sides ever. The ultimate companion at the jobsite, at the homestead or on the trail, the MULE PRO Series has the hard-working muscle to meet the demands of your day with comfort and efficiency.

Solid construction, starting with the sturdy ladder-style steel frame, is at the core of every MULE PRO vehicle. With the steel-floor-based cargo bed, rugged one-ton towing capacity and the option of three-passenger or six-passenger configurations, the incomparable MULE PRO vehicles can move both crews and cargo with efficiency. A variety of sophisticated on-board amenities mean you can power through your day with comfort and convenience. Choose your ideal workhorse from the expansive range of 2017 Kawasaki MULE PRO side x sides, all built strong to work hard and backed confidently by the Kawasaki STRONG 3-year Limited Warranty.

MULE™ PRO SERIES

2017

6-PASSENGER TRANS CAB™

MULE PRO-FXT™ & MULE PRO-DXT™

Kawasaki's MULE PRO-FXT™ and MULE PRO-DXT™ side x sides feature the exclusive Trans Cab™ system, which allows you to transform from a single-row three-passenger cab to a six-passenger configuration. Stadium-style seating orientation gives six adult-size passengers a comfortable ride with padded bench seats and ample legroom. The rugged steel-floor-based cargo bed can accommodate a generous payload, even in six-passenger mode. With the ability to transport people and cargo, the MULE PRO-FXT and MULE PRO-DXT side x sides can do it all.

SUPER BLACK

MULE PRO-FXT™ EPS LE

FIRECRACKER RED

MULE PRO-FX™ EPS LE

CLASS-LEADING CARGO SPACE

MULE PRO-FX™ & MULE PRO-DX™

With a massive 20 square feet of cargo bed area (the largest in its class) and up to 1,000 pounds of cargo capacity, the MULE PRO-FX™ and MULE PRO-DX™ side x sides can transport tools and supplies with ease.

The rugged steel-floor-based cargo bed can accommodate level loading and unloading of a standard-size wooden pallet (40" x 48"). The MULE PRO-FX and MULE PRO-DX vehicles are the perfect companion for the working outdoorsman, with all-day comfort and strong, dependable performance.

MULE PRO-FX™ & MULE PRO-DX™ CARGO CAPACITY

The 2017 MULE PRO-FX™ and MULE PRO-DX™ side x sides have the largest cargo bed in their class with the added comfort to get the job done, whether you're maintaining pastures, tending to the horses or just heading out for a family fishing trip. Take everything you can carry as the MULE PRO-FX and MULE PRO-DX vehicles provide ample room to efficiently transport large loads. The high-capacity steel-floor-based cargo bed easily accommodates level loading and unloading of a standard-sized wooden pallet (40" x 48"). With a 1,000-pound maximum cargo capacity* the MULE PRO-FX and MULE PRO-DX side x sides facilitate proficient hauling of gear, supplies, tools and cargo.

*600 pounds maximum hauling capacity for California gas models in 3-passenger mode.

VERSATILITY FOR ANY JOB

MULE PRO-FXT™ & MULE PRO-DXT™ TRANS CAB™

With the versatility of Kawasaki's exclusive three-to-six passenger Trans Cab™ system, the MULE PRO-FXT™ and MULE PRO-DXT™ side x sides can be easily converted from a three-passenger cargo hauler to a six-passenger people mover. It takes one person one trip around the vehicle in less than one minute and requires no tools. Convert your MULE PRO-FXT or MULE PRO-DXT from hauling equipment at the jobsite to taking the friends and family for a ride in three simple steps.

6-passenger configuration

The Trans Cab system can easily transform the MULE™ from 6-passenger configuration to 3-passenger configuration

3-passenger configuration offers extra room for cargo

MULE™ PRO SERIES

PICK YOUR POWER HOUSE

GAS POWER

MULE PRO-FX™ & MULE PRO-FXT™

The MULE PRO-FX™ and MULE PRO-FXT™ side x sides are powered by a three-cylinder, 812cc, DOHC engine that produces an astounding 48 lb-ft of torque. Substantial pulling power, smooth acceleration and impressive climbing capability are among the many benefits of the DFI® powerhouse. Best-in-class generator capacity (75-amp) can easily power multiple accessories at once. With excellent performance for work or play, our fastest, most powerful MULE™ PRO models are ready to take on anything from a day at the ranch to an adventure in the mountains.

DIESEL MUSCLE

MULE PRO-DX™ & MULE PRO-DXT™

A strong and efficient inline three-cylinder diesel engine powers the MULE PRO-DX™ and MULE PRO-DXT™ side x sides. The low-revving 993cc diesel engine produces over 38 lb-ft of torque suited for applications that demand hauling or towing heavy loads all day long. A strong 55-amp generator can power accessories for even more versatility in the field. The robust engine design and high fuel efficiency result in a lower cost of operation, making the MULE PRO-DX and MULE PRO-DXT side x sides unbeatable assets for the jobsite.

MULE™ PRO SERIES

POWER TO GET WORK DONE

1 ENGINE

Both diesel- and gas-powered engines of the MULE™ PRO Series side x sides offer exceptional power for dependable and versatile performance. Smooth, steady acceleration makes maneuvering a breeze. Abundant torque produces a robust one-ton towing capacity, while efficient top speed and unrivaled dependability means hardworking performance day in and day out.

2 CVT TRANSMISSION

The Continuously Variable Transmission (CVT) is perfectly matched to the potent power of the MULE PRO, delivering an ideal balance of torque and speed. Quick CVT belt engagement contributes to smooth power delivery that enables the driver to precisely modulate vehicle speed and accelerate quickly out of a stop. This dual-range transmission provides effective low-range power, which utilizes full torque and is ideally suited for towing, hauling and climbing; while high-range is ideal for traversing greater distances in less time. The smooth, natural feeling engine braking of the CVT is reassuring on steep descents.

3 DRIVE

Selectable 2WD/4WD and a rear differential lock are standard on all MULE PRO side x sides. Through dash-mounted switches, you can activate the drive you need to traverse uneven terrain with the right amount of ground-gripping proficiency.

MULE™ PRO SERIES

CLASS-LEADING COMFORT

1 COMFORTABLE RIDE

Independent front and rear suspension not only improves traction, but gives the MULE™ PRO Series vehicles class-leading comfort. Twin-tube shock absorbers provide excellent bump absorption to give you a smooth, comfortable ride. Durable rubber bushings at the A-arm and knuckle connections help absorb vibration, as well as protecting components.

2 SPACIOUS CABIN

Thick cushioned bench seats and a spacious cabin add to the comfort of the MULE PRO Series side x sides. The seat material remains pliable even in cold temperatures for a plush ride when you need it most. The cabin maximizes headroom and legroom for both front and rear passengers, allowing ample room for full-size adults. Grab handles and retractable three-point seatbelts provide a secure ride for your crew while standard doors help keep out mud, water and debris.

3 PREMIUM EPS

MULE PRO Series side x sides are available with speed-sensitive Electric Power Steering (EPS). The intuitive system offers maximum assistance at low speeds for effortless maneuvering and reduced assist at higher speeds for optimal steering feedback. It also helps dampen any kickback to the steering wheel so rocks or bumps at speed won't send a jolt to the driver's hands.

Vehicle shown with optional accessories.

MULE™ PRO SERIES

BUILT TO WORK BUILT TO LAST

1

1 SOLID WELDED FRAME AND ROPS

Ladder-style construction of the welded main frame gives the MULE™ PRO vehicles a sturdy platform worthy of the name Kawasaki STRONG. The lateral and torsional rigidity are optimized for a stable and comfortable ride, while the frame is also designed to help protect vital components from terrain hazards. A relatively short wheelbase of 92.3 inches and a turning radius of 16 feet offer surprising agility, while the robust steel front bumper and Roll-Over Protective Structure (ROPS) provide a rugged external structure.

2 BRAKES

Four-wheel hydraulic disc brakes give the MULE PRO Series the stopping capabilities to match their robust power. Large 212mm discs with dual-piston calipers in the front and single-piston calipers in the rear provide strong, progressive braking power with smooth and consistent performance. The integrated rear parking brake is activated by a dash-mounted lever and helps secure the vehicle when parked.

3 DURABILITY

The intelligent design of the MULE PRO Series not only helps you work smarter, but is also constructed for durability that can withstand the daily life of a working outdoorsman. Integrated inner wheel wells deflect mud and debris away from engine compartment to help protect vital components. Electrical equipment, such as fuses and the ECU connection, are mounted high in the chassis in a water-resistant compartment for reliable protection.

MULE™ PRO SERIES

PERFORMANCE PUT TO WORK

1 SUSPENSION

Ride in comfort with independent front and rear suspension. Push action, even over rough terrain, allows the MULE™ PRO vehicles to maintain a steady grip on the ground for the comfort and confidence to get the job done. A-arm and knuckle connectors have rubber bushings for increased durability as well as optimum performance. With a wide stance, capable suspension and over 10 inches of ground clearance, the MULE PRO side x sides offer a sturdy and agile ride even in the toughest conditions.

2 CARGO CAPACITY

Generous payload capacity of the MULE PRO side x sides give you the power to take it all with you. The rugged steel-based cargo bed offers outstanding durability and superior load distribution. With a 1,000-pound maximum cargo capacity* (350 pounds in the six-person configuration of the MULE PRO-FXT™ and MULE PRO-DXT™ vehicles), MULE PRO vehicles have the powerful capability to take on your toughest workloads.

3 TOWING

MULE PRO vehicles offer a powerful one-ton towing capacity with an integrated two-inch receiver hitch to tackle just about any task. With its productive top speed and abundant torque, the MULE PRO Series side x sides can efficiently transport large loads of equipment, supplies, tools or even toys, making it a versatile and productive companion at the jobsite or on the weekend.

*600 pounds maximum hauling capacity for California gas models in 3-passenger mode.

MULE™ PRO SERIES

IT'S ALL ABOUT CONVENIENCE

1 ONBOARD AMENITIES

A tilt steering wheel on most models can be manually adjusted over a stepless range of approximately 40 degrees on gas models and 34 degrees on diesel models, or tilted up and out of the way when entering and exiting the vehicle. The powerful generator provides the electrical capacity to operate numerous powered accessories such as a winch, stereo, lights and the 12-volt DC power outlet. The well thought-out dash provides room for accessory switches and a stereo knockout for seamless integration of the Kawasaki Genuine Accessories of your choice. A large, illuminated digital display, cup holders and glove box give the interior functionality and appeal that makes the MULE™ PRO Series stand above the rest.

2 MAINTENANCE AND ACCESS

Quick and easy access to service areas makes routine maintenance simple. Removal of the maintenance cover requires no tools and provides easy access to the engine oil dipstick, battery and air filters. The top panel of the front hood is also removable without the use of tools and provides easy access to the fuses, ECU connection and engine cooling system reservoir. Behind the cab is a steel-floor-based cargo bed that can be easily tilted for clear access to the engine.

STAND OUT IN A CROWD

MULE PRO-FXT™ RANCH EDITION

For the fully loaded premium MULE™ PRO model, look to the MULE PRO-FXT™ Ranch Edition side x side featuring Trans Cab™ adjustability. This gas powered six-passenger MULE stands out in a crowd as the ultimate ranch hand, packed with amenities for refined comfort and style— and recreation features to help get you through your day.

1 RANCH EDITION FEATURES

Ranch Edition badging and durable automotive-grade Metallic Titanium paint are among the standout features offered on this premium model. The 2017 MULE PRO-FXT Ranch Edition comes equipped with both halogen and LED headlights that can be used together or separately along with EPS, a sun top and aluminum cast wheels. Let the Ranch Edition carry the burden of your toughest jobs.

2 2-TONE SEAT WITH EMBOSSED LOGO

Padded two-tone bench seats are an exclusive feature of the MULE PRO-FXT Ranch Edition. Vinyl seat covers feature superior elasticity that remains pliable in low temperatures. Combined with the plush padding, they offer extra comfort on long days. Finished with the embossed Ranch Edition logo, the MULE PRO-FXT Ranch Edition is branded with sophisticated style.

3 WARN® VANTAGE™ WINCH WITH REMOTE CONTROL SWITCH

The MULE PRO-FXT Ranch Edition comes equipped with a WARN® Vantage™ Winch that delivers a 4,000-pound pulling capacity, ideal for moving heavy loads or operating an accessory plow. Featuring 50 feet of 3/16-inch cable, with a black powder-coated hawse fairlead, fully sealed motor and drive train to keep the elements out, the winch also comes with a corded remote control so you can operate the winch while outside your MULE PRO-FXT Ranch Edition.

MULE™ PRO SERIES SIDE X SIDES SPECS

MULE PRO-FX™ EPS LE

ENGINE	4-stroke, 3-cylinder, DOHC, liquid-cooled
DISPLACEMENT	812cc
BORE X STROKE	72.0 x 66.5mm
COMPRESSION RATIO	9.5:1
MAXIMUM TORQUE	48.0 lb-ft @ 3500 rpm
FUEL SYSTEM	DFI® w/34mm throttle body
IGNITION	Battery and coil
TRANSMISSION	Continuously Variable Transmission (CVT) with high, low, neutral, reverse gears and engine braking
FINAL DRIVE	Shaft, selectable 4-wheel drive with dual-mode rear differential
ALTERNATOR OUTPUT (MAX)	75 amp
FRONT SUSPENSION / WHEEL TRAVEL	Double wishbone/8.7 in
REAR SUSPENSION / WHEEL TRAVEL	Double wishbone/8.5/8.7 in
FRONT TIRES	26x9.00 R12
REAR TIRES	26x11.00 R12
STEERING	Electric power assisted rack-and-pinion
FRONT BRAKES	Hydraulic dual 212mm discs with two-piston calipers
REAR BRAKES	Hydraulic dual 212mm discs with single-piston calipers, mechanical parking brake
GROUND CLEARANCE	10.4 in
FUEL CAPACITY	7.9 gal
TURNING RADIUS	16.0 ft
ROLL OVER PROTECTIVE STRUCTURE (ROPS)	ROPS meets the performance requirements of ISO 3471
CARGO BED DIMENSIONS (LXWXH)	54.1 x 53.3 x 11.0 in
CARGO BED CAPACITY	1000 lb 600 lb maximum capacity for California models
LOAD CAPACITY	1649 lb
SEATING CAPACITY	3
TOWING CAPACITY	2000 lb
LIGHTING	(2) 55/60W sealed-beam headlights, (2) LED auxiliary lights
FRAME TYPE	Steel tube ladder type
OVERALL LENGTH	133.3 in
OVERALL WIDTH	64.0 in
OVERALL HEIGHT	79.7 in
CURB WEIGHT	1801.5 lb**
WHEELBASE	92.3 in
INSTRUMENTS	Multi-function display includes digital speedometer, fuel gauge, odometer, hour meter, clock, dual trip meters, 2WD/4WD indicator, water temperature warning indicator, oil pressure warning indicator, fuel injection warning indicator, CVT warning indicator, neutral, reverse and parking indicators, seatbelt reminder lamps
COLOR CHOICES	Super Black, Firecracker Red
WARRANTY	Kawasaki Strong 3-Year Limited Warranty
KAWASAKI PROTECTION PLUS™ (OPTIONAL)	12, 24 or 36 months

KAWASAKI STRONG

MUCH MORE THAN MOTORCYCLES

BULLET TRAINS

You already know KHI builds machines that move people. But, did you know it also builds machines that move thousands of people—all at once? We're talking trains here. From New York City subway cars to Japan's hyper-speed bullet trains, Kawasaki has been in the business since 1906. Whether a 186-mph bullet train or a 1,441cc Ninja® ZX™-14R motorcycle, KHI likes to believe that the technology that goes into moving thousands of people has a positive effect on how it goes about moving just one.

MOTORCYCLES

Since KHI built its first motorcycle engine in 1953, it has never stopped pushing technology to arm riders with what they need to dominate the streets. Advanced engineering, exhaustive testing and tireless passion go into every motorcycle every time rubber hits the road. From industry-first features to the features that have evolved over a long history, KHI's innovations will never stop feeding the insatiable appetites of riders around the world.

ROBOTICS

If robots are the future, then KHI has been shaping it since 1969 when the company built its first industrial robot. KHI continues to be a leader in the development of robots for a diverse number of processes including: assembly, handling, welding, painting and sealing. Kawasaki robot technology is being used every day to manufacture motorcycles and other products.

KAWASAKI HEAVY INDUSTRIES, LTD. (KHI)

With 130 years of Kawasaki Heavy Industries, Ltd. (KHI) engineering building the heaviest, most durable and complex machines on the planet, Kawasaki STRONG is a name we can claim. KHI builds tunnel-boring machines that connect continents and trains that carry millions of New Yorkers in and out of the city 24 hours a day, seven days a week. From these engineering monsters to the last bolt on the MULE™ PRO side x side, KHI engineering says, over and over: Use me. Rely on me. I'm built to work.

KAWASAKI STRONG 3-YEAR LIMITED WARRANTY COMPARISON

KAWASAKI • 36 MONTHS

HONDA • 12 MONTHS

JOHN DEERE • 12 MONTHS

POLARIS • 6 MONTHS

YAMAHA • 6 MONTHS

ARCTIC CAT • 6 MONTHS

CAN-AM • 6 MONTHS

WARRANTY

Every Kawasaki MULE™ side x side is backed with the Kawasaki STRONG 3-Year Limited Warranty. Ask your dealer for details about the factory warranty and available extended coverage.

UP TO THREE YEARS ADDITIONAL COVERAGE

Let Kawasaki protect your new vehicle for years to come with Kawasaki Protection Plus™. This plan repairs or replaces most components free of charge if found defective in material or workmanship. Everything about the plan is easy: There's no deductible. It's honored at every authorized Kawasaki dealer nationwide. It's transferable to another owner with no fee. Just ask your dealer how you can buy additional coverage of 12, 24, or 36 months (depending on the model and plan purchased). FL Lic #65500, Kawasaki Motors Corp., U.S.A., PO Box 25252, Santa Ana, CA 92799, (949) 770-0400.

KAWASAKI CARES

Always wear protective gear appropriate for the use of this vehicle. Never operate under the influence of drugs or alcohol. Protect the environment. The Kawasaki MULE side x side is an off-highway vehicle only, and is not designed, equipped, or manufactured for use on public streets; roads or highways. Obey the laws and regulations that control the use of your vehicle. Read Owner's Manual and all on-product warnings.

RTV-X Series

Features

RTV-X1100C

Premium Grand Cab

Whether it's hot and humid, cold and windy, or raining cats and dogs, you'll stay dry and comfortable inside the RTV-X1100C's quiet and luxurious air-conditioned and heated cab. Built around a unibody frame that is virtually airtight, soundproof, and rattle-free, the cab incorporates highly efficient air-conditioning, heating, and defogging functions, as well as antennas and speakers for an optional radio.

Factory Air Conditioner, Heater and Defroster

Hot or cold, rain or shine, the temperature inside can always be just right for you. The air conditioner, defroster, and heater system are powerful, efficient, and standard equipment on the RTV-X1100C.

Fully-opening roll-down windows in doors

When the weather is nice, just roll down the fully opening windows. This truly is the best all-weather, all-comfort, all-the-time driving environment you'll ever experience on the trail.

Unibody Cab & Chassis Frame (meets OSHA & SAE ROPS standards)

You'll enjoy a smoother, quieter, more comfortable ride, thanks to the RTV-X1100C's integrated unibody cab and chassis frame. They form a rigid yet lightweight unit that is rugged, airtight, lownoise, and rattle-free. Even more impressive, the cab meets SAE J2194 and OSHA 1928 ROPS standards.

24.8hp Kubota Diesel Engine

Power when and where you need it. Even when the trail disappears, you can rely on the RTV-X1100 powerful 24.8 HP diesel engines to keep you moving forward. Kubota-built and trail-proven, these 3-cylinder liquid-cooled diesel engines have a well-earned reputation for dependable performance even in the harshest terrains. The RTV-X1100 comes with a robust 24.8 HP engine.

RTV-X Series

Features

RTV-X1100C

VHT-X Variable Hydraulic Transmission with Oil Cooler

Kubota has more experience in variable hydraulic transmissions than any other Utility Vehicle manufacturer. Kubota's advanced VHT-X offers a wide torque band and large oil coolers that boost performance and durability.

In-Line 2-speed Shifter (L-H-N-R)

You'll shift less often and maintain better control, thanks to new transmission gearing with just two forward speeds (high and low), plus neutral, and reverse.

Limited-Slip Front Differential

True 4-wheel drive with a limited-slip front differential and a locking rear differential help reduce wheel spin to a minimum, giving you greater control and a smoother ride on rough or muddy terrain.

Dynamic Braking

You'll feel more secure, especially when traveling down long inclines, knowing that dynamic braking is providing additional braking power and greater driving control.

Strong High-Rigidity Frame

The high-rigidity steel frame isolates the occupants from noise, vibrations, and harshness. With structural strength that few in the industry can match, this durable frame can take years of punishment from heavy loads and rough terrain.

20% Larger, Clog-Resistant Radiator

Open the hood, and you'll find the radiator and air-intake located high and up front, where the air is cleaner and cooler. This improves both radiator performance and simplifies maintenance. Kubota's wide fin pitch design minimizes clogging, further improving radiator performance.

RTV-X Series

Features

RTV-X1100C

Front & Rear Independent Suspension

Regardless of the terrain or load, independent suspension on all four wheels ensures a truly exceptional ride. Kubota's Extra Duty IRS (Independent Rear Suspension) technology also sets a new standard for durability.

Height-Adjustable Front & Rear Suspension

Whether you've got a heavy load or no load at all, adjustment of the front and rear suspension height will ensure the proper vehicle height for a smooth ride and optimum driveability.

High Ground Clearance-- 10.4 inches

The new X-series raises the bar on ground clearance—to a full 10.4" with 8" of suspension travel—letting you glide over the bumps rather than through them.

CV Joint Protectors & Skid Plates

Obstacles on the trail? CV joint protectors and heavyduty skid plates will protect the most critical parts of the engine and transmission.

60:40 Split-Bench Seats

The split-bench style seat is ergonomically designed to provide hours of riding comfort. The driver's side is adjustable fore and aft.

Hydraulic Power Steering

Responsive hydrostatic power steering gives you the control you need to tame any terrain. The steering wheel is tilt-adjustable, allowing you to set the optimum angle for your driving style.

RTV-X Series

Features

RTV-X1100C

Digital Meter Cluster

Bright, with large, easy-to-read indicators, this digital meter cluster keeps you informed of all critical driving conditions, including speed, hours, and miles traveled. An Overheat Alarm (light and audio) helps prevent engine damage.

Easily Accessible Dash-mounted Parking Brake

The parking brake is conveniently located on the dashboard for easier access as well as more legroom.

Under-Seat Storage Compartments

Large compartments under the split-bench seats provide plenty of convenient storage space for tools, tie-downs, and personal items.

Hydraulic Dumping Cargo Box

With the flick of a single lever, the hydraulic-lift cargo box rises and your cargo slides out. Cargo that could take significant physical strength and time to unload can now be dumped with little effort in mere seconds.

Tie-down hooks in four corners of Cargo Box

Four tie-down hooks in the corners of the cargo box help keep loads in place no matter how rough the terrain.

1100 lbs Cargo Capacity

It's not enough to get you there and back. You need to get your stuff there and back, as well. This heavy-duty steel cargo box can do that for you, carrying up to a half-ton (1,102 lbs.) of tools, firewood, gear, supplies...whatever you need to haul from here to there and back again. Cargo tie-down hooks help keep your gear secure.

RTV-X Series

Features

RTV-X1100C

Factory Spray-on Bed Liner Option

An optional factory-installed bed liner helps protect the cargo bed from dirt and damage.

1300 lbs Towing Capacity

Standard front and rear two-inch hitch receivers at the front and back let you tow up to 1,300 lbs. of gear.

For Earth, For Life
Kubota

KUBOTA 4WD DIESEL UTILITY VEHICLE
RTVX1140

When the going gets tough, get aboard a Kubota RTV-X1140.

It's no secret that Kubota RTVs have been the best-selling diesel utility vehicles in North America for over a decade. After all, they've set the standard for ruggedness and reliability year in and year out.

And now these best-selling, standard-setting utility workhorses just got a whole lot better. Introducing the new Kubota RTV-X1140 Four-Seater, improved throughout to give you the best possible performance and comfort across a wide range of jobs. When you need to move a crew, fold up the cargo bed and flip down the rear seat; the RTV-X1140's generous seats offer a comfortable ride for up to four adults. When it's cargo that needs hauling, flip up the seat and fold down cargo bed; the RTV-X1140 now has industry-leading cargo capacity and a standard hydraulic bed-lift that makes short work of dumping tasks.

No wonder the best-selling diesel utility vehicles in North America since 2004 have been Kubota RTVs.

KUBOTA 4WD DIESEL UTILITY VEHICLE
RTV X1140

From industry-leading cargo capacity to comfortable seating for four adults in three simple steps that can be performed easily by just one person.

[K-vertible™]

1 Reposition the sides of the bed

Swing the front side panels of the cargo bed towards the back of the bed and fold down the front panel.

2 Reposition the cargo bed

Next, lift the front of the cargo bed and secure it.

3 Reposition the protective screen and bench seat

Next, move back and secure the protective screen with back rest. Finally, lower and secure the bench seat. Reverse these three steps to restore the RTV-X1140's full-length bed.

Two-person seating configuration

Four-person seating configuration

Standard Hydraulic Dump Bed

Dump sand, gravel, turf, or just about anything you can think of, from the RTV-X1140's whopping, 19.1 cu. ft./9.9 cu. ft. (two-seat and four-seat configurations, respectively) capacity cargo bed. An easy-to-operate lever activates this hydraulic bed-lift system in either two or four-seat configuration.

TOUGH

Kubota diesel engines—dependable power, when and where you need it.

Power when and where you need it

Even when the trail disappears, you can rely on the RTV-X1140 powerful diesel engine to keep you moving forward. Kubota-built and trail-proven, these 3-cylinder liquid-cooled diesel engines have a well-earned reputation for dependable performance even in the harshest terrains. The RTV-X1140 comes with a robust 24.8 HP engine.

VHT-X (Variable Hydraulic Transmission)

Kubota has more experience in variable hydraulic transmissions than any other Utility Vehicle manufacturer. Kubota's advanced VHT-X offers a wide torque band and large oil cooler that boost performance and durability.

Front & Rear Independent Suspension

Regardless of the terrain or load, independent suspension on all four wheels ensures a truly exceptional ride. Kubota's Extra Duty IRS (Independent Rear Suspension) technology also sets a new standard for durability.

High Ground Clearance

The new X1140 raises the bar on ground clearance—to a full 10.8" with 8" of suspension travel—letting you glide over the bumps rather than through them.

Limited-Slip Front Differential

True 4-wheel drive with a limited-slip front differential and a locking rear differential help reduce wheelspin to a minimum, giving you greater control and a smoother ride on rough or muddy terrain.

Dynamic Braking

You'll feel more secure, especially when traveling down long inclines, knowing that dynamic braking is providing additional braking power and greater driving control.

20% Larger, Clog-resistant Radiator

Open the hood, and you'll find the radiator and air-intake located high and up front, where the air is cleaner and cooler. This improves both radiator performance and simplifies maintenance. Kubota's wide fin pitch design minimizes clogging, further improving radiator performance.

Transport plenty of people and then haul plenty of cargo.

MORE FEATURES

A variety of standard and optional features to let you work productively and travel comfortably.

Spray-on Bed Liner (factory option)

An optional factory-installed bed liner helps protect the cargo bed from dirt and damage. Six tie-down hooks in the corners help keep loads in place.

Towing Capacity

Standard two-inch hitch receivers at the front and back let you tow up to 1,300 lbs. of gear.

Newly Designed ROPS

The poles at the rear have been eliminated for a cleaner look and easier cargo loading from the sides in the 2-seat configuration. A 5th pole has been added in the rear middle of the frame to ensure the same high level of ROPS performance that meets the SAE J2194 and OSHA 1928 ROPS standards.

Pole-free access to the entire cargo bed for easier loading from the sides.

Alloy Wheels (optional)

You'll travel in style with these good-looking, machine-polished alloy wheels. Clear Coating helps keep them bright and shiny.

More Comfortable Rear Seat

More legroom for the backseat passengers means more comfort and less fatigue, especially on long journeys. Your crew will arrive fresh and ready for action.

COMFORT

A whole new experience in driving comfort.

60:40 Split-bench Seats

The split-bench style seat is ergonomically designed to provide hours of riding comfort. The driver's side is adjustable fore and aft.

Easily accessible Parking Brake

The parking brake is conveniently located on the dashboard for easier access as well as more legroom.

Power Steering

Responsive hydrostatic power steering gives you the control you need to tame any terrain. The steering wheel is tilt-adjustable, allowing you to set the optimum angle for your driving style.

Glove Box

A large glove box on the passenger side provides fast access to critical tools and personal effects.

Digital Meter Cluster

Bright, with large, easy-to-read indicators, this digital meter cluster keeps you informed of all critical driving conditions, including speed, hours, and miles traveled. An Overheat Alarm (light and audio) helps prevent engine damage.

Under-seat Storage Compartments

Large compartments under the split-bench seats provide plenty of convenient storage space for tools, tie-downs, and personal items.
